DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dr. DeCamp on 9/29/05.

The application has been amended as follows: in claim 25, line 5, between " a computer program product" and "arranged to provide" please insert __stored on a computer readable medium".

REASON FRO ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: as to independent claim 9, the closest prior art of Zavislan et al alone or in combination with other prior art fails to tech or fairly suggest the method as claimed in instant claimed invention. In particular the key distinction between the prior art and the claimed invention is that the prior art of Zavisaln does not rely upon processing images by combining pictures taken at a single magnification; enabling zooming in and out from each magnification to another; and detecting background and image intensity and correcting the images accordingly, as required by independent claim 9. Accordingly, claims 9, 11-32 are allowed (hereafter as claims 1-23).

Art Unit: 2625

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
